P. Benarji Rathnam

Aspiring Full Stack & AI/ML Developer
Hyderabad, Telangana, India | +91 6303066179 | benarjip69@gmail.com | linkedin.com/in/benarji-p-126a52305

Summary

Computer Engineering undergraduate and aspiring Full Stack & AI/ML Developer with hands-on experience building full-stack web applications and blockchain-based systems. AI/ML intern recognized as Best Performer. Skilled in Python, JavaScript, React.js, Django, Node.js, and machine learning fundamentals.

Experience

Elevate Labs June 2025 – July 2025
AI & Machine Learning Intern *Remote*

- Completed a 5-week Artificial Intelligence and Machine Learning internship, applying core ML concepts and analytical techniques to real-world project tasks under mentorship.
- Recognized as **Best Performer** for exceptional skill, consistency, and dedication; strengthened skills in data analysis, problem-solving, and professional communication.

Projects

E-Voting System Using Blockchain | ***Python, Django, React.js, Solidity, Ethereum, Ganache, MetaMask, SQLite*** 2025

- Engineered a secure, decentralized e-voting platform using Ethereum blockchain and smart contracts to guarantee vote immutability, eliminate double voting, and increase election transparency.
- Architected a full-stack application using Django (backend) and React.js (frontend), and designed Solidity smart contracts deployed on Ganache to enforce one-vote-per-voter logic.
- Integrated MetaMask wallet authentication for secure vote transactions and implemented Aadhaar-based verification with email OTP for voter identity checks.
- Built an admin dashboard for candidate management and real-time result generation, backed by a SQLite database managing voter records.

Grocery Tracking Application | ***React, Node.js, Express.js, MongoDB*** Jan – Oct 2025

- Developed a full-stack web application enabling users to manage grocery purchases, track daily expenses, and reduce food wastage, with full CRUD functionality and real-time inventory tracking.
- Built backend REST APIs using Node.js and Express.js, with MongoDB for persistent data storage.
- Designed a responsive React-based UI with dashboards for purchase history, expense analytics, and expiry alerts, plus category-based filtering and low-stock reminders.
- Proposed scalability enhancements including barcode/QR scanning, multi-user family sharing, and AI-driven purchase suggestions.

Education

Matrusri Engineering College 2022 – Present
B.Tech in Computer Engineering; CGPA: 7.0 *Hyderabad, India*

Global Junior College 2022
Intermediate (MPC) – Physics, Chemistry, Mathematics; Score: 5.81 *Telangana, India*

TSWREIS Govt. School, Parigi 2020
SSC; GPA: 9.5 *Telangana, India*

Technical Skills

- **Languages:** Python, Java, C, JavaScript, SQL, HTML, CSS, Solidity
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Django
- **Databases:** MongoDB, SQLite, MySQL
- **Tools & Platforms:** Git, GitHub, VS Code, Jupyter Notebook, Ganache, MetaMask, Ethereum
- **Concepts:** Machine Learning Fundamentals, Blockchain & Smart Contracts, REST APIs, CRUD Applications

Certifications

- Artificial Intelligence and Machine Learning Internship – Elevate Labs (2025)
- Data Analytics Job Simulation – Deloitte Australia (Forage)

Achievements

- State-Level Merit Certificate in Volleyball – School Games Federation (SGF)
- Local Tournament Winner – Leather Ball Cricket
